

## Water flow testing is a life-saving necessity – so why is it so outdated?

Ormic Systems has revolutionized water flow testing with one genius app – **Flow**.

**Flow** is an easy to use wizard app that guides the measurer through all the necessary measuring procedures. The data is entered directly into the app and is immediately available online, anywhere, anytime.

No more paperwork, no more drafting, no more waste of time.

## ► The Flow Advantage

- Intuitive – simple fill-in-the-blanks interface
- Compatible with all mobile devices – tablets, portable computers, smartphones
- Standardized
- Digitally signed
- Free and personalized

Ormic Systems, established in 2018, specializes in command and control solutions in the world of fire risks. With over 30 years of accumulated experience, Ormic Systems is led by an accomplished team of experts in the fields of fire safety and system engineering.
